Ouk Sorphandararath

Web Developer

I am deeply passionate about creating exceptional user experiences through innovative web solutions. With a strong analytical mindset, I approach coding challenges with a problem-solving attitude and a keen eye for detail. My main aim is not only to problem solve, but help bridge the gap between end-user and businesses.

Personal Projects

July 18, 2023 - July 26, 2023
OneTwoCook - Cuisine Recipes Website
Technology used: Javascript, React JS, Firebase
- Developed an online recipe website that is a convenient and interactive platform for all cooking enthusiasts.
- Provides users with a wide range of recipes across three categories: food, drink, and dessert.
- Enables users to search for specific recipes by cuisine name.
- Allows users to save their favorite recipes.
- Includes a random function to discover random recipes within each category.
- Empowers users to contribute by adding their own recipes to the platform.

June 01, 2023 - June 20, 2023
Mynote - Note Taking Website
Technology used: Javascript, React JS, Firebase
- Developed MyNote, a user-friendly website for writing, viewing, and managing notes efficiently.
- Empowered users to search, create, edit, and delete notes effortlessly.
- Implemented a pinning feature, allowing users to pin important notes for quick access in the pinned section.
- Technologies used include JavaScript, ReactJS, Tailwind CSS, and Firebase's real-time database for seamless data storage and retrieval.

July 5, 2023 - July 15, 2023
Portfolio - Personal Website
Technology used: Javascript, React JS, Tailwind CSS
- Developed a responsive personal portfolio website using JavaScript and React JS to showcase my skills and projects.
- Provides essential information about myself, including details about my skills, completed projects, and a contact form for potential employers or clients to reach out.
